

PLEASE NOTE JANUARY THROUGH DECEMBER

1967 ARTICLE INDEX

A subject listing of articles published in MODERN MACHINE SHOP
during the past year.

ABRASIVE MACHINING

Tangential Rolling Increases Crankshaft Life	Jan., 138
Abrasive Machining: Why and When	May, 130
Shot Peening: Abrasive Blast Finishing	Aug., 120
Roller Burnishing Differential Warning Switch Bodies.....	Aug., 138
Abrasive Machining Achieves Tight Tolerance	Nov., 156

ASSEMBLY

Toggle Clamps Save Time in Building Assembly Jigs	Sept., 154
---	------------

AUTOMATIC AND SCREW MACHINING

Look at Carbides for Your Automatics	Oct., 110
Carbide Cutoff and the Automatic Bar Machine.....	Dec., 128

AUTOMATION

Special Machine Redesign Reduces Relay Post Machining Operations	Jan., 158
Transfer Lines Cut Tubular Forings Cost	Apr., 162
Precision Dies Made on Automatic Lathe.....	May, 156

BALANCING

Balancing Memory Drum Rotors	Mar., 156
In-Place Grinding Wheel Balancing	May, 150

BEADING

Machinable Carbide Hammers Out Higher Can Production.....	Dec., 141
---	-----------

BENDING

Bending Without Mandrels	Apr., 130
Traveling Tonnage Concentrating Die Masters Heavy Plate.....	July, 116
Rolling Heavy Gauge Stainless to Perfect Cylinders in Single Pass.	Sept., 156
Steel Plate Corrugated on Hydraulic Press Brake	Sept., 160
Incomplete Cutting Technique Simplifies Fabrication.....	Oct., 166
Precise Bending Makes Pre-Fab Tank Assembly Easy.....	Nov., 150
Sectional Press-Brake Dies Have Many Advantages.....	Nov., 160

BORING

Bores Are Machined Faster With NC Jigmill	Jan., 156
Lucas Boring Machine at Fuller Brush Cuts Backlog	Mar., 148
Multi-Surface Machining of Aircraft Cylinders.....	May, 152
Digital Readout Jumps Boring Mill Output.....	July, 128
Vibration Damped Boring Bar Cuts Machine Costs.....	Oct., 150
Machining Time Cut by Tape-Controlled Mill	Dec., 142

CARBIDE TOOLING

Carbide Tooling Improves Production of Master Inserts.....	Feb., 148
Unusual Offset Fixture Simplifies Machining of Pump Housings....	Apr., 157
Machinable Carbide Die Pounds Out \$40,000 Saving.....	Apr., 158
There's Gold in Dull Carbide.....	July, 124
ELG Provides Multiple Benefits In Carbide Saw Sharpening.....	Aug., 124
New Efficient Shape of Carbide Inserts.....	Sept., 134
Look at Carbides for Your Automatics	Oct., 110
Carbide Cutoff and the Automatic Bar Machine.....	Nov., 114
Switch to Inserts Boosts Carbide Output	Nov., 132
Carbide Cutoff and the Automatic Bar Machine.....	Dec., 128
Machinable Carbide Hammers Out Higher Can Production.....	Dec., 141

CENTERING

Device Aids Work Centering.....	Aug., 146
---------------------------------	-----------

CERAMIC TOOLING

Production Increased in Boring Wheel Molds.....	Feb., 148
---	-----------

CHEMICAL MACHINING

Chemical Machining - Its Advantages and Capabilities	Oct., 168
--	-----------

CHIP CONTROL

Chip Breaker Incorporated in Drill Bushing.....	Sept., 164
---	------------

CHUCKING

Easily Hobbed Splined Shafts Improve Product.....	June, 144
Shim Aids in Truing Tap Jaws.....	Sept., 163
Stub Your Drills... Lengthen Your Profits.....	Dec., 104

CLAMPING

Toggle Clamps Save Time in Building Assembly Jigs.....	Sept., 154
--	------------

CLEANING

Abrasive Blast Cleaning Film	Jan., 161
Brushing System Cleans Strip Steel Better	June, 154

COMPUTERS

NC and the Computer - A Practical Approach.....	Dec., 118
---	-----------

CONTROLS

Digital Readout Jumps Boring Mill Output.....	July, 128
Turret Lathes Take Advantage of Fluidics.....	Sept., 114
Lathe Control System Increases Production.....	Oct., 154

COOLANTS

Gun Drilling 12 Foot Stainless Bars.....	Feb., 150
Cooling Industrial Fluids.....	Oct., 146
Magnetic Coolant Separators Help Cut Costs.....	Nov., 152

CRIMPING

Multipress Used for Crimping Operations July, 144

CUTOFF

Carbide Cutoff and The Automatic Bar Machine Nov., 114

Carbide Cutoff and the Automatic Bar Machine Dec., 128

CUTTING TOOLS

The Concern of the Process Engineer..... Feb., 112

Diamonds Are A Man's Best Friend Feb., 124

High Positive Rake Cutters Feb., 136

A Practical Lesson In Metalworking Economics Mar., 144

High Speed Steel for Cutting Tools Apr., 116

Diamond Tools Machine Ferrite for Computer Components... Aug., 131

New Efficient Shape of Carbide Inserts Sept., 134

DEBURRING

Production Eight Times Faster for Gear Deburring Operation Feb., 154

Abrasive Blast Finishing - Media and Methods Sept., 138

DIAMOND TOOLING

Tangential Rolling Increases Crankshaft Life Jan., 138

Diamonds Are A Man's Best Friend Feb., 124

Diamond Tools Machine Ferrite For Computer Components.. Aug., 131

DIE DESIGN

Machinable Carbide Die Pounds Out \$40,000 Saving Apr., 158

Horn Type Forming Die..... Apr., 169

Hardened Insert Reduces Die Maintenance May, 162

Floating Die for Piercing and Staking June, 168

Hinge Leaf Cutoff Die July, 152

Novel Drill Aligner Sept., 164

Sectional Press Brake Dies Have Many Advantages..... Nov., 160

DIGITAL READOUT

Digital Readout Jumps Boring Mill Output July, 128

DIMPLING

Multipurpose Dimple Plate Oct., 163

DRILLING

Special NC Machine and Adaptation Smashes Bottleneck Jan., 149

Gun Drilling 12 Foot Stainless Parts Feb., 150

Job Shop Cuts Machining Substantially Apr., 166

Machining "Moly" Diecasting Dies May, 110

Multi-Surface Machining of Aircraft Cylinders May, 152

Turret Drill Triples Manpower Productivity May, 158

Novel Drill Aligner Sept., 164

Novel Fixture for Drilling and Milling Operations Oct., 162

Stub Your Drills - Lengthen Your Profits..... Dec., 104

DUST CONTROL

Dust Control System Improves Plant Cleanliness June, 158

ELECTRICAL DISCHARGE MACHINING

If You Are Thinking of EDM June, 130

Converted Planer Accommodates King Size EDM Work July, 142

Ultra-Precision EDM Sept., 126

ELECTROLYTIC GRINDING

ELG Provides Multiple Benefits in Carbide Saw Sharpening ... Aug., 134

ESTIMATING

Predict Your NC Machining Time Feb., 132

EXPOSITIONS

ASTME Engineering Conference & Tool Exposition Apr., 188

Photo Report of ASTME Show June, 354

New England Conference and Tool Exposition Nov., 180

Ten Thousand Tools at Hanover Fair Nov., 340

EXTRUDING

Think Extrusion When You Think of Shape Oct., 142

FACING

Installation Cuts Hard Chrome Plating Costs..... Mar., 154

FIXTURES & JIGS

Positioning Brake Improves Simplified Trunnion Stand Jan., 162

Slot Makes Grinding Angle More Versatile Feb., 158

Modified Tool Post Increases Production Mar., 158

Simple Removable Locating Pin. Mar., 158

Fixture for Drilling Sheet Metal Parts Mar., 159

Unusual Offset Fixture Simplifies Machining of Pump Housings.. Apr., 154

Simple Method for Containing Locating Pin Apr., 168

Master Blocks Aid in Producing Accurate Ground Work Apr., 170

NC's Fourth Dimension Aids Cost Reduction Program June, 148

Simple Risers Protect Fixture Surfaces June, 170

Buttons Replace Fixture Keys for Cost Reduction June, 172

Modified Center Aids Bushing Assembly July, 154

Mechanical Guard for Hydraulic Rams Reduce Downtime Aug., 132

Rocker Bar Equalizer Improved with Manual Lock..... Aug., 143

Toggle Clamps Save Time in Building Assembly Jigs Sept., 154

Novel Fixture for Drilling and Milling Operations Oct., 162

Semicircular Weldments Obtained by Hydraulic Reforming... Nov., 158

Drill Fixture Converted to Insert Pressing Tool Nov., 160

Holding Small Non-Magnetic Parts for Grinding Dec., 159

FLAME SPRAYING

Metallizing or Powder Flame Spraying for Repair Work Dec., 148

FLUIDICS

Turret Lathes Take Advantage of Fluidics Sept., 114

FORGING

Aluminum Valve Body Forms 'Skeleton' for Mechanical Respirator.. Jan., 150

FORMING

Pipe Formed Economically on Hydraulic Press Brake Mar., 150
 Fabrication Problems and Answers May, 138
 Traveling Tonnage Concentrating Die Masters Heavy Plate July, 116
 High Speed Hydroforming Rolls On Nov., 138
 Thin Wall Tubes Formed Progressively..... Nov., 154
 Semicircular Weldments Obtained by Hydraulic Re-forming ... Nov., 158
 Sectional Press Brake Dies Have Many Advantages Nov., 160
 Aluminum Poles Formed Three Times Faster Dec., 140

FOURSLIDE

How An Expert Tools the Micro Fourslide Oct. 119

GAGING

How To Use A Surface Plate Mar., 164
 Flush Pin Gages Apr., 124
 Guidelines for Establishing a Quality Control System..... Apr., 140
 Simple Method for Containing Locating Pin Apr., 168
 Using a Roll Pin as a Depth Gage Sept., 166
 Plastic-Back Template Aids Gaging Oct., 164

GEAR CUTTING

Gears and Gear Hobbing Jan., 114
 The Concern of the Process Engineer Feb. 112
 Production Eight Times Faster for Gear Deburring Operation.. Feb., 154
 Manufacturing and Quality Control Mar., 130

GRINDING

Tangential Rolling Increases Crankshaft Life Jan., 138
 Surface Grinders are Versatile for Highly Diversified Mfgs. Jan. 154
 Slot Makes Grinding Angle More Versatile Feb., 158
 Precise Advance and Rocking Motion Built into Grinder Apr., 160
 In-Place Grinding Wheel Balancing May, 150
 Close Tolerance Grinding on Variety of Motor Shafts June, 160
 Universal Grinder Saves Time, Money at Overhaul July, 140
 Grinders Produce Tools to Maximum Accuracy Aug., 130
 Centerless Grinder Reduces Costs Dec., 146

GUN DRILLING

Gun Drilling 12 Foot Stainless Bars Feb., 150
 Gun Drilling Helps Quadruple Output in Short Runs May, 147

HARD FACING

Metallized Screw Machine Spindles Cut Costs Apr., 156
 Flame Spraying Reduces Maintenance Costs May, 146
 Powder Deposit Rebuilds Shaft for Half the Cost Aug., 136

HONING

Microhonoring Process June, 176

INSPECTION

Specifying and Checking Countersunk Holes Nov., 161

KEYSEATING

Combination Milling Machine Ups Productivity 40 Percent ... Sept., 152

LAPPING

Oil Seal Race Production Increased with Lapping Machine.... May, 148

Oil Seal Race Production Increase with Abrasive Lapping ... Sept., 150

MACHINE DESIGN

Special NC Machine Adaptation Smashes Bottleneck Jan., 144

Precise Advance and Rocking Motion Built into Spring Carriages.. Apr., 160

Job Shop Cuts Machining Substantially Apr., 166

Mechanical Guard for Hydraulic Rams Reduce Down Time Aug., 132

MAINTENANCE

Die Repairing Made Easy Nov., 148

MANAGEMENT

The Boss Wants Reports on Paper Mar., 138

Controlling Paper Helps to Manage Time Nov., 120

Controlling Paper Helps to Manage Time Dec., 112

MASKING

Don't Mask It - Bag It Feb., 158

MATERIALS

Aluminum Valve Body Forms 'Skeleton' for Mechanical Respirator Jan., 150

TSP 'Hotspot' Hardened Parts Resist Failures in Usage Feb., 155

NC Machining of Titanium Mar., 118

Special Stainless Steel Improves Tool Life Mar., 152

Machining 'Moly' Diecasting Dies May, 110

Material Change Increases Valve Seat Production June, 153

High Speed, Consistent Machinability with Stainless Steel July, 150

ELG Provides Multiple Benefits in Carbide Saw Sharpening .. Aug. 134

Think Extrusion When You Think of Shape Oct., 142

Improved Steel Increases Tool Life 30 Percent Oct., 152

Magnetic Coolant Separators Help Cut Costs Nov., 152

Stainless Steel Meets Challenge of Smaller Shop Production.. Dec., 134

MATERIALS HANDLING

Swing Rack Permits Overhead Handling Feb., 160

Simple Signaling Improves Truck Service July, 153

Conveyorized Tree Rack Supplies Assembly Operations Aug., 142

MEASUREMENT

Metric System Discussion (Over the Editor's Desk) Jan., 98

Magnet Improves Reading of Hydraulic Feeds Dec., 159

1. The first part of the report deals with the general situation of the country.

2. The second part of the report deals with the economic situation of the country.

3. The third part of the report deals with the social situation of the country.

4. The fourth part of the report deals with the political situation of the country.

5. The fifth part of the report deals with the cultural situation of the country.

6. The sixth part of the report deals with the environmental situation of the country.

7. The seventh part of the report deals with the international situation of the country.

8. The eighth part of the report deals with the future prospects of the country.

9. The ninth part of the report deals with the conclusion of the report.

10. The tenth part of the report deals with the annexes of the report.

11. The eleventh part of the report deals with the bibliography of the report.

12. The twelfth part of the report deals with the index of the report.

13. The thirteenth part of the report deals with the list of figures of the report.

14. The fourteenth part of the report deals with the list of tables of the report.

15. The fifteenth part of the report deals with the list of abbreviations of the report.

16. The sixteenth part of the report deals with the list of symbols of the report.

17. The seventeenth part of the report deals with the list of acronyms of the report.

18. The eighteenth part of the report deals with the list of footnotes of the report.

METALLURGY

High Speed Steel for Cutting Tools	Apr., 116
--	-----------

MILLING

Special NC Machine Adaptation Smashes Bottleneck	Jan., 144
Versatile Miller Turns Out Automation Parts	Feb., 152
Machining 'Moly' Diecasting Dies	May, 110
Duplex Mill Doubles Production	June, 152
Combination Milling Machine Ups Productivity 40 Percent ...	Sept., 152
Novel Fixture for Drilling and Milling Operations Saves Time ..	Oct., 162
Machining Time Cut by Tape-Controlled Mill	Dec., 142

NUMERICAL CONTROL

Special NC Machine Adaptation Smashes Bottleneck	Jan., 144
Aluminum Valve Body forms 'Skeleton' for Mechanical Respirator	Jan., 150
Bores are Machined Faster with NC Jigmil	Jan., 156
Predict Your NC Machining Time	Feb., 132
Complete NC Car Body Computer Program	Feb., 330
NC Machining of Titanium	Mar., 118
Lucas Boring Machine Cuts Backlog	Mar., 148
If You Are Thinking of NC	May, 116
NC's Fourth Dimension Aids Cost Reduction Program	June, 148
Numerical Controlled Tape Machining Puts Detroit Diesel in High Gear ...	Aug., 98
Proven Pointers for NC Punching	Oct., 128
Training Plugs NC Profit Leaks	Nov., 126
NC and the Computer	Dec., 118
Machining Time Cut by Tape Controlled Mill	Dec., 142

OPTICAL TOOLING

Ultra-Precision EDM	Sept., 126
---------------------------	------------

PEENING

Shot Peening: A Controlled Manufacturing Process	June, 116
Shot Peening: Equipment Sepcification, Economics	July, 98
Shot Peening: Abrasive Blast Finishing	Aug., 120

PLANT LAYOUT

Compressed Air Powers Machines At Hunter Spring	Jan., 157
For Needed Storage, the View Is Up	June, 125

PLANT MANAGEMENT

A. O. Smith's Million Dollar Approach to Safety	Jan., 130
Controlling Paper Helps to Manage Time	Nov., 120

PRESS WORKING

A. O. Smith's Million Dollar Approach to Safety	Jan., 130
Pipe Formed Economically on Hydraulic Press Brake	Mar., 150
Fabrication Problems and Answers	May, 138
Adjustable Shut Height Controls Knockout Punch	June, 138
Trimming Production Costs with Adjustable Dies	June, 164
Traveling Tonnage Concentrating Die Masters Heavy Plate ..	July, 116
Three Axis Plate Punching	July, 130
High Speed Hydroforming Rolls On	Nov., 138

PRESS WORKING (CONT.)

Automated Press Line for Fiat	Nov., 144
Aluminum Poles Formed on Hydraulic Press Brakes	Dec., 140

PUNCHING

Fabrication Problems and Answers	May, 138
Adjustable Shut Height Controls Knockout Punch	June, 138
Trimming Production Costs with Adjustable Dies	June, 164
Three Axis Plate Punching	July, 120
Proven Pointers for NC Punching	Oct., 128

QUALITY CONTROL

Guidelines for Establishing a Quality Control System	Apr., 140
--	-----------

ROLL FORMING

Rolling Heavy Gauge Stainless in Single Pass	Sept., 156
--	------------

ROLLER BURNISHING

Roll Burnishing Speeds Cylinder Production.....	Mar., 146
Roller Burnishing Differential Warning Switch Bodies.....	Aug., 138
Roll Burnishing Cuts Nozzle Holder Tooling Costs	Oct., 154

SAFETY

A. O. Smith's Million Dollar Approach to Safety	Jan., 130
Hydraulic Fluid Safety	Feb., 127
Safety In A Small Press Plant	Aug., 108

SAWING

Diamonds Are a Man's Best Friend	Feb., 124
--	-----------

SCREW MACHINING

Compare Your Automatic Setup Methods with the Experts....	Jan., 120
Draw Bar Attachment Permits Greater Efficiency	July, 148
High Speed Consistent Machineability with Free-Machining SS...	July, 150

SHEARING

Economic Study of Shearing	Jan., 166
Secret of Precision Shearing Is In The Tool	Aug., 94

SINTERING

High Temperature Sintering Kiln Boosts Production	Oct., 158
---	-----------

SPLINE HOBGING

Easily Hobbed Splined Shafts Improve Product	June, 144
--	-----------

STORAGE

For Needed Storage The View Is Up	June, 126
Container Rack System Accommodates Overflow Production..	Sept., 151

1. The first part of the report deals with the general situation of the country and the results of the survey.

2. The second part of the report deals with the results of the survey in the different regions of the country.

3. The third part of the report deals with the results of the survey in the different sectors of the economy.

4. The fourth part of the report deals with the results of the survey in the different social groups.

5. The fifth part of the report deals with the results of the survey in the different administrative regions.

6. The sixth part of the report deals with the results of the survey in the different economic sectors.

7. The seventh part of the report deals with the results of the survey in the different social groups.

8. The eighth part of the report deals with the results of the survey in the different administrative regions.

9. The ninth part of the report deals with the results of the survey in the different economic sectors.

10. The tenth part of the report deals with the results of the survey in the different social groups.

11. The eleventh part of the report deals with the results of the survey in the different administrative regions.

TAPPING

Special Machine Plus Part Redesign Reduces Post Machining Operation.. Jan., 158
On Heavy Boiler Plate, No Chip Tapping Proves Best Mar., 110

TESTING

Non Destructive Testing Method Feb., 162

THREADING

Unique Thread Rolling Attachment Out-Performs 3 Machines... Dec., 148

TOOL DESIGN

Open End Box Wrench Jan., 164
High Positive Rake Cutters Feb., 136
Unique Pressing Solution May, 164
Device Holds Work Against Center June, 169
How to Reduce Tool Design Costs July, 110
Drill Fixture Converted to Insert Pressing Tool Nov., 160
Auxiliary Toolholder Dec., 158

TOOL GRINDING

Numerically - Controlled Gun Drilling Oct., 158
Carbide Cutoff and The Automatic Bar Machine Nov., 114

TRAINING

Metalworking Information Reading Rack Feb., 146
One Man's Answer to Labor Shortage Sept., 120
Training Plugs NC's Profit Leaks Nov., 126

TURNING

Production Increased in Boring Wheel Molds Feb. 148
Machining 'Moly' Diecasting Dies May, 110
Multi-Surface Machining of Aircraft Cylinders May, 152
Device Holds Work Against Center June, 169
Bushing Finish Machining Time Cut July, 138
Turret Lathe Take Advantage of Rhidics Sept., 114
The New Efficient Shape of Carbide Inserts Sept., 134
Setup Provides Precise Taper Setting Sept., 162
Lathe Control System Increase Production Oct., 154

WELDING

Innershield Welding Puts Method One Step From Automation.. Nov., 146

GENERAL INTEREST

Metric System Discussion..... Jan., 98
Gears & Gear Hobbing Jan., 114
A. O. Smith's Million Dollar Approach to Safety Jan., 130
The Concern of the Process Engineer Feb., 112
High Positive Rake Cutters..... Feb., 136
In Heavy Boiler Plate, No Chip Tapping Proves Best Mar., 110

1. The first part of the report deals with the general situation of the country and the progress of the work done during the year.

2. The second part of the report deals with the results of the work done during the year and the progress of the work done during the year.

3. The third part of the report deals with the results of the work done during the year and the progress of the work done during the year.

4. The fourth part of the report deals with the results of the work done during the year and the progress of the work done during the year.

5. The fifth part of the report deals with the results of the work done during the year and the progress of the work done during the year.

6. The sixth part of the report deals with the results of the work done during the year and the progress of the work done during the year.

7. The seventh part of the report deals with the results of the work done during the year and the progress of the work done during the year.

8. The eighth part of the report deals with the results of the work done during the year and the progress of the work done during the year.

9. The ninth part of the report deals with the results of the work done during the year and the progress of the work done during the year.

10. The tenth part of the report deals with the results of the work done during the year and the progress of the work done during the year.

11. The eleventh part of the report deals with the results of the work done during the year and the progress of the work done during the year.

12. The twelfth part of the report deals with the results of the work done during the year and the progress of the work done during the year.

13. The thirteenth part of the report deals with the results of the work done during the year and the progress of the work done during the year.

14. The fourteenth part of the report deals with the results of the work done during the year and the progress of the work done during the year.

GENERAL INTEREST (CON'T.)

NC Machining of Titanium	Mar., 118
The Boss Wants Reports on Paper	Mar., 138
A Practical Lesson in Metalworking Economics	Mar., 144
High Speed Steel for Cutting Tools	Apr., 116
Machining 'Moly' Diecasting Dies	May, 110
If You Are Thinking of NC	May, 116
Bell Finds Value in Tool Exhibit on Premises	May, 125
Proportionate Difference Calculations Made Easy	May, 162
Shot Peening: A Controlled Manufacturing Process	June, 116
If You Are Thinking of EDM	June, 130
Shot Peening: Equipment, Specifications, Economics	July, 98
There's Gold in Dull Carbide	July, 124
Digital Readout Jumps Boring Mill Output	July, 128
Secret of Precision Shearing Is In The Tool	Aug., 94
Numerical Controlled Tape Machining Puts Det. Diesel in High Gear ...	Aug., 98
Safety In A Small Press Plant	Aug., 108
Shot Peening: Abrasive Blast Finishing	Aug., 120

JANUARY THROUGH DECEMBER

1968 ARTICLE INDEX

A subject listing of articles published in MODERN MACHINE SHOP
during the past year.

AUTOMATIC & SCREW MACHINING

Watchmaker's Precision . . . Automatically	Jan., 147
All Purpose Machine Solves Expansion Problem	Feb., 146
Automatic Chucker Inserts Heavy Liner	Apr., 138
Chucker Gives Manufacturer Edge on Productivity	June, 162
316 SM Stainless Lowers Cost of Ball Check Valves	Aug., 147
Fast Feed for Short Bars or Long Parts	Sept., 126
Job Profits with Free Machining Stainless	Sept., 156
Think Negative, Cut Positive	Nov., 129

AUTOMATION

Senco Develops Big Approach to Small Parts	July, 110
Four Types of Spindles Produced by Assembly Machine	Oct., 154

BALANCING

Modern Tech. Builds Today's Autos	Mar., 124
---	-----------

BENDING

Urethane Die Takes Wrinkles Out	Apr., 126
---------------------------------------	-----------

BLANKING

Smooth-Edge Blanking	Nov., 172
----------------------------	-----------

BORING

Double Duty Boring Machine Outpaces Turret Lathe	Jan., 146
Automatic Chucker Inserts Heavy Liner	Apr., 138
Damping Vibration Increases Tail Stock Production	May, 150
Machining Giant Gear Cases	July, 142
Standard Machines Are Very Much Alike	Oct., 150
Setup Releases Four Machines	Nov., 146
Multiple Spindle Boring Boosts Production	Dec., 124

BROACHING

How to Machine the Stainless Steels	Jan., 110
Senco Develops Big Approach to Small Parts	July, 110
Look at Broaching for Those Small Parts	July, 136

BURNISHING

Roller Burnishings' New Look	May,, 114
Roll-A-Finish Tool Cancels Grinding and Honing	May, 147

CARBIDE TOOLING

Carbide Cutoff and the Automatic Bar Machine	Jan., 124
Carbide Files and Their Fascinating History	May, 139
Titanium Carbide Eliminates Finishing	July, 150
Sharpening and Maintenance of Carbide Dies	Sept., 166
Think Negative, Cut Positive	Nov., 129
The New Look in Die Building	Dec., 87
Carbide Grade Semifinishes Steel Rings Three Times Faster	Dec., 122

CERAMIC TOOLING

Ceramic Tools	Feb., 164
---------------------	-----------

CHIP CONTROL

Part/Chip Conveyor Speeds Screw Machine Output	May, 152
--	----------

CLAMPING

Inexpensive Clamping Method	Feb., 162
Custom Vise Fills Production Need	May, 163
One Nut Clamps Four Workpieces Simultaneously	Aug., 156

COMPUTERS

Computer Controls Speed Punch Operation	Feb., 120
Data Collection Plus Control Center Improves Control	July, 122

CONTROLS

Computer Controls Speed Punch Operation	Feb., 120
Equipment Control Connectors Reduce Down-Time	May, 156
Data Collection Plus Control Center Improves Control	July, 122
Fluidics Go To Work	Oct., 143

COOLANTS

Coolants Should Be Kept Clean Too	May, 124
Time Saved in Determining Coolant Rates	Nov., 152
Coolant Jet Built Into Fixture	Nov., 166

CUT-OFF

Carbide Cutoff and the Automatic Bar Machine	Jan., 124
--	-----------

CUTTING TOOLS

Carbide Cutoff and the Automatic Bar Machine	Jan., 124
Titan Carbides Eliminates Finishing Operation	July, 150
T-15 Is Hard, Tough, and Can Be Ground	Aug., 114
Hob Sharpener Increases Accuracy	Oct., 160

DEBURRING

Star-Shaped Tumbling Media Reduces Cost	Apr., 168
Mechanical Deburring Saves Money	June, 154
Drilling, Tapping & Deburring Problems Solved	Sept., 164

DIAMOND TOOLING

Why Diamond Abrasives	Jan., 130
Diamond Wheels and Miniature Grinder Speed Work Flow	Feb., 152
Turning Armatures with Diamond Tool in High-Speed Lathe	Mar., 160
Dressing Technique Speeds ID Grinding	Mar., 172
Diamond Paste and Powders Film	Nov., 165

DIE DESIGN

Positioning Dowel Holes in Die Nests	Jan., 163
Floating Punch Minimizes Breakage	July, 154
Die Steels That Beat Heat Treat Drawbacks	Sept., 132
Proper Pin Dressing	Oct., 166
Positive Die Stop	Nov., 168
The New Look in Die Building	Dec., 86

DIGITAL READOUT

Readout Wrings Out Time Loss	Aug., 138
------------------------------------	-----------

DRAWING

Press Lubricants - What You Should Know	Feb., 126
What You Should Know About Press Lubricants	Mar., 138

DRILLING

How to Machine the Stainless Steels	Jan., 110
Drill Jig Combines Locator and Clamp	Feb., 160
NC Drill Accepts 400 Programmed Jobs	June, 160
When the Boss Is Too Busy to Listen	June, 142
Surface Integrity . . . New Machining Requirement	Sept., 114
Drilling, Tapping & Deburring Problems Solved	Sept., 164
Standard Machines Are Very Much Alike	Oct., 150
Washer Aids Countersinking Operation	Oct., 165
Setup Releases Four Machines	Nov., 146
Drill Life Extended	Nov., 154
Coolant Jet Built Into Fixture	Nov., 166

FIXTURES & JIGS

Drill Jig Combines Locator and Clamp	Feb., 160
Tapping Machine with Future Saves Dollars	Mar., 170
Inexpensive Fixture Aids Spot Welding Operation	Mar., 174
Self-Relieving Locator Hold Welding Dimensions	Mar., 175

1. THE PROBLEM

The problem is to find a function $f(x)$ which satisfies the conditions

2. THE SOLUTION

The solution is given by the function $f(x)$ which satisfies the conditions

3. THE CONCLUSION

The conclusion is that the function $f(x)$ satisfies the conditions

4. THE REMARKS

It is noted that the function $f(x)$ satisfies the conditions

5. THE REFERENCES

The references are given in the following list

6. THE APPENDIX

The appendix contains the following information

7. THE INDEX

The index is given in the following list

8. THE BIBLIOGRAPHY

The bibliography is given in the following list

FIXTURES & JIGS (CONT'D)

Taper/Wedge Lever Mechanism	Mar., 178
Arbor Setup Aids Deep Slotting	Apr., 172
Bolts Used as Work Locators	May, 162
Future for Grinding V-Thread Tool Bits	May, 166
Spindle-Mounted Work Stop	June, 164
High Tonnage Applied to Small Weldments	July, 155
One Nut Clamps Four Workpieces Simultaneously	Aug., 156
Inverted Chuck Drill Jig	Aug., 157
Chain Adjusts Spring Tension	Aug., 158
Plate Lift Adjusts Easily	Sept., 162
Drilling, Tapping, and Deburring Problems Solved	Sept., 164
Producing Precision Aircraft Fittings	Oct., 162
Coolant Jet Built into Fixture	Nov., 166
Dial Indicator Converted to Depth Gage	Dec., 132
Setup Releases Four Machines	Nov., 146

FLAME CUTTING

Flame Cutting Table Improves Working Conditions	Jan., 164
---	-----------

FLUIDICS

Fluidics Go To Work	Oct., 143
---------------------------	-----------

FORMING

Urethane Die Takes Wrinkles Out	Apr., 126
Tubular Stamping for Venturi Tube Production	July, 143
Press Brake and Shearing Team Increases Sales	Nov., 148
Forming Panels Without Springback	Dec., 94

GAGING

An Alternate Formula for Specifying and Checking Countersunk Holes	Feb., 162
Improved Straightening Gaging	Apr., 175
Spindle Mounted Work Stop	June, 166
How to Determine Diametral Pitch	July, 156
Internal Gear Relief	July, 156
Dial Indicator Converted to Depth Gage	Dec., 132

GEAR CUTTING

Fast Method to Lay Out Gear-Tooth Forms	Apr., 173
A Rule of Hand for Helical Gearing	June, 167
How to Determine Diametral Pitch	July, 156
Internal Gear Relief	July, 156
Swthh Plays Role in Chipless Machining	Sept., 154

GRINDING

Grinding Shafts to Close Tolerances	Jan., 158
Uniform Repeatability of Hydraulic Feed Cuts Production Time to 50%	Feb., 148

GRINDING (CONT'D)

Tolerances Uniformly Repeated on Cylindrical Grinder	Feb., 156
How to Machine the Stainless Steels	Mar., 144
Versatility of Grinder Vital to Operation of Job Shop	Mar., 164
Dressing Technique Speeds ID Grinding	Mar., 172
1000 Ground and Polished Spinning Rings Per Hour	Apr., 162
Equipment Control Connectors Reduce Down Time	May, 156
Hi-Frequency Resistance Welding of Structural Sections	Aug., 110
Controlled-Force Grinding Principle Confirmed	Aug., 148
Surface Integrity - New Machining Requirement	Sept., 114
Lathe Spindle Supports Grinding Wheel Dresser	Dec., 134

GROOVING

Double Duty Boring Machine Outpaces Turret Lathe	Jan., 146
--	-----------

GUNDRILLING

Precision Lathe Used As Gun Drill	Dec., 128
---	-----------

HARD FACING

Composite Design Gives Improved Ram at Less Cost	Mar., 158
Wirespray Metallizing Cuts Replacement Cost	June, 158
